(57) Abstract :

A method for delivering educational training and placement service comprise the steps of collecting respective input data (such as name, address) from a candidate and recruiter, allowing the candidate, recruiter to select one or more service from a list, where the services includes recruitment service, scheduling services, training services, allowing the recruiter to upload post(s) along with additional information such as location, package, where the candidate is permitted to apply on the post(s), asking the candidate to attempt a pre-defined test series set by the recruiter and generating a grade card, transferring the grade card to the recruiter, wherein the recruiter is permitted to schedule a meeting after selection of scheduling service and delivering multiple training sessions to the candidate that increase the chance of getting a higher grade in the test series thereafter availing the training service.
