Address of Applicant :State Highway 12A Jhanjeri, Sahibzada
Ajit Singh Nagar, Punjab 140307, India. Punjab India

(72)Name of Inventor :
1)Dr. Anil Kumar Lamba
2)Sonia Sharma
3)Bhanu Sharma

(57) Abstract :

The device comprising a cylindrical body 1 having first 2 section including a cavity for holding a container and a second section 3 including a central rod 9 equipped with artificial intelligence based imaging unit for detecting dimensions of the container, a storage chamber 4 for storing different gaskets on a set of primary racks that provides selected gasket based on dimensions of the container, a slider platform 5 for providing gaskets from primary racks towards the platform that moves inside the cavity for providing gasket in alignment with the central rod 9, a gripping assembly 7 arranged on central rod 9 and included with multiple slider racks 8 for vertical movement along with central rod 9 to attain proximity with gasket and multiple telescopic rods 10 attached on racks 8 for extending in vertical motion and slide horizontally along racks 8 to grip and align gasket.
