## Institutional Vision and Leadership

The governance and leadership is in accordance with vision and mission of the institution and it is visible in various institutional practices such as decentralization and participation in the institutional governance

**Response:**

### Vision Statement

To emerge as an institution of technical excellence imparting professional education for sustainable development of society.

### Mission Statement

- To provide quality technical education through state-of-the-art infrastructure and well qualified & experienced faculty.
- Having academic flexibility through strong industry academic interactions.
- Focus on students' employability, entrepreneurship, higher education and competitive examinations.
- To inculcate ethical and moral values in students.

### Nature of Governance

The College Governing council (CGC) is an integral part which steers the institution towards academic excellence with a holistic approach. The governance of the Institution is reflective of an effective leadership in tune with the vision and mission statements. The established policies in the Institute ensure the integrity and effectiveness of the governance and administration. The Institute believes in shared leadership and participative decision-making approach. This reflects the decentralization of its operations and delegation of the necessary authorities and responsibilities. Such delegations follow a systematized organizational structure with clearly laid down job responsibilities. The council encourages participative management by involving faculty members in taking decisions. So, various verticals have been formulated for effective functioning of institute. Each verticals have independent heads taking decisions in line with institute policies and regulatory requirements in consultation with Directors. The committees or Cells are as follows.

## Women Development Cell

Women Development Cell @ CEC Jhanjeri is a vibrant and ever active collaboration of students, faculty and staff; strive to create a more inclusive, tolerant and gender-sensitive community on campus and in society. It believes in empowering females by creating awareness of socio-political, cultural and legal perspectives through talks, workshops, seminars and awareness campaigns. Through its numerous activities – mehndi competitions, poster making, slogan writing, rangoli making, debates, self-defense trainings – the Cell sensitively and holistically educates women from colleges and neighborhoods.
